Laboratory note : Delta-8 derived THC-O Acetate does not yet have a certified reference material (CRM) standard available on the market. The only available CRM standard currently available on the market is Delta-9 derived THC-O Acetate. It is not accurate for a laboratory to report Delta-8 derived THC-O Acetate when using a Delta-9 derived THC-O Acetate CRM standard. This sample highlighted in this COA contains an unidentified analyte believed to be Delta-8-THC-O and was detected in the chromatogram. The concentration for this unidentified analyte is estimated to be 700mg or 70%
